## ProAvita® ProLevel+

---

ProAvita® ProLevel + is an advance Sequestering, Levelling and Dispersing agent for Cellulosic substrates and its blends.

It is used as a dye bath conditioner which enhances dye depth and ensures patch free dyeing.

The product is in compliance with GOTS 6.0, ZDHC Gateway, OEKO-TEX / ECO PASSPORT / REACH certifications

### Product Specifications

Physical Form	Liquid
Colour	Light Brown to Dark Brown liquid
Ionic Character	Anionic- Amphoteric in nature when applied
Operating pH	2.5 to 14
Operating Temperature	1° C to 140° C
Effective Substance	A consortium of bio chemicals derived from probiotics
Electrolyte Stability	Stability to electrolytes used in Textile processing
pH	2.5 < V < 3.5
Biodegradability	100%
Storage	Store at room temperature, do not freeze, keep lid closed, avoid direct sunlight.
Packaging	Packed in 50 Kg barrel.

## Advantages

Features	Benefits
Enhanced Dyeing Quality	<ul style="list-style-type: none"><li>• Ensures no loss in the dye yield</li><li>• Improves Dye exhaustion</li><li>• Improves brightness of shades</li></ul>
Multifunctional	<ul style="list-style-type: none"><li>• Replaces existing sequestering, levelling and Dispersing agents used in dye bath</li></ul>
Non-Foaming	<ul style="list-style-type: none"><li>• Does not foam when used in jets - all type of process / machine during the process</li></ul>
100% Biodegradable	<ul style="list-style-type: none"><li>• Reduces effluent load on E.T.P up to 30%</li><li>• Nontoxic to aquatic organism</li></ul>

## Application Dosage

ProAvita® ProLevel + is applied at the rate of 0.6% (50% in dye paste and 50% in dye bath) 0.3% in dye preparation and 0.3% in dye

## Safety and Handling

Nontoxic, does not require any protective equipment when handling. Rinse with water if product comes into contact with eyes.
